

Dear Investors / Stakeholders,

I cannot resist myself from sharing the joyous moments I have experienced during the last few days **since our IPO was announced which culminated into a phenomenal response** from the investors much beyond our hope and expectations.

At the end of the 4th day of subscription, I am not only surprised but also overwhelmed that **the issue is over-subscribed by over 300 times**. In other words, it is not a handful of investors who trusted us but a lot many more that have reposed faith on us. Initially I thought I will drive a car with some beside me and some in the back seat willing to take up the journey. But as the things stand now, **more than two lakhs of people have expressed their interest** to be a part of the journey when I may not be able to accommodate all of them. Nevertheless, it is a commitment from me that I will surely drive a much bigger one with loads of people sooner and not late. I will justify my actions, objectives, and plans to those who have decided to be a part of my trip.

I have firm plans to accommodate around 850 numbers of investors initially, however big, or small the number may seem individually or collectively, treat them henceforth as an equal partner to be able to get an opportunity to listen to them, to discuss if required and take appropriate action honouring their views at large and not restrict myself to my own concepts only. But irrespective of **the number of 850 or 270,000, I will continue to pursue the same thought process** what I had followed earlier. My prime intention would be to get along with the all the intending investors like me who have shown their willingness to be a co-walker with me into the ambitious travel ahead.

I wish to express my sincere thanks to all stakeholders and let me assure that we have just began a very promising venture and have a long way to go to make it worthwhile for all. Hence **the bell will commence ringing on 2nd of December 2022** with the curtain raised to the full and I am sure to accomplish the dream of those who are about to take a berth in my vehicle. I wish I had a more spacious car to harbour all the interested investors who could not make it this time, but I will not let them lose heart when I come up with more attractive dispensation as per plans of the Company. And this is a commitment.

Sincerely,

Umesh Kumar Agarwal

[Promoter & Managing Director]
